Fac-simile of unsolicited Testimonial received from Rev^d P. H. Kempthorne M.A. of Wellington College.

Wellington College

June 4. 1886

Gentlemen.

Having passed my noviciate in Photography I wish to thank you for the introduction you have given me to a most agreeable recreation

After the usual Elementary course of lessons I was able to produce satisfactory Negatives from the first day of unassisted trial Though I had but little leisure for practice in two months I found myself sufficiently at home to take my Camera to Holland and brought back a couple of dozen pictures without having spoilt one plate. ~~I cannot attribute~~ This result cannot be attributed to any special aptitude on my part It is no doubt due to the goodness of the Lens & other apparatus with which you supplied me & to the excellence of the instruction I received at your establishment. I cannot speak too highly of the civility & patience with which my requests for help & criticism have been met on all occasions.

I am.
Yours faithfully
P. H. Kempthorne
